NOBLE GENETICS & BREEDING / FARMER RESOURCES

7-Day Feeding & Breeding Checklist

For cows, goats and sheep. A simple starting point for better farm records, seasonal feeding plans and a more useful conversation with your farm adviser.

- [ ] **DAY 1** — **Record your starting point**

  List your animals, their identification, age group and production purpose.

- [ ] **DAY 2** — **Review forage availability**

  List the hay, silage and pasture available now and in the coming season.

- [ ] **DAY 3** — **Check feed storage**

  Record storage conditions, cleanliness and any feed quality concerns.

- [ ] **DAY 4** — **Review breeding records**

  Gather mating, insemination, birth and follow-up dates where available.

- [ ] **DAY 5** — **Track costs and production**

  Record feed quantities, expenses, weights or milk records consistently.

- [ ] **DAY 6** — **List your questions**

  Note feeding, breeding or management questions for a qualified adviser.

- [ ] **DAY 7** — **Plan the next step**

  Choose one practical priority and arrange the support your farm needs.

Bring your records to your next consultation.
